- 4 bike variant, w=1800 mm (9.5 kg)
- 5 bike variant, w=2250 mm (7.5 kg)

## SAFE-X

Säkerhet behöver inte vara komplicerat eller svårt. Det handlar om att välja rätt produkter för rätt tillfälle. På Safe-X har vi bestämt oss för att sammanställa ett sortiment av produkter inom säkerhet som vi vet alltid behövs inom industri, lager och bygg. Produkter som är viktiga för verksamheten, men som inte ska behöva ta tid och kraft för att hitta och beställa. Safe-X har sitt huvudkontor och lager i Värnamo. Försäljningen sker genom i huvudsak telefon-försäljning och webbhandel. Vi som står bakom Safe-X har många års erfarenhet från säkerhetsfrågor, produkter och hur verkligheten ute i industrin fungerar. Vi har upptäckt att säkerheten går att dela in i två områden: Dels den totala säkerheten som kräver analys, kundspecifika lösningar och ett mer omfattande kringarbete. Dels den mer fortlöpande säkerheten som mer är inriktad på enskilda produkter. Det är här som Safe-X kommer in och idag erbjuder ett unikt koncept av produkter. Det räcker med ett samtal eller en order via vår onlinebutik så har du allt du behöver inom ett par dagar.
